DUCHENNE CARE CONFERENCE 2024

Amsterdam, 29 April 2024

Subject: Invitation to attend Duchenne Care Conference 2024

Dear Healthcare Professional,

Staying up-to-date on the latest developments in Duchenne muscular dystrophy (DMD) care is crucial for providing the best possible care for people living with this condition. For this reason, I am pleased to invite you to register for the upcoming Duchenne Care Conference 2024.

Date: May 27 and 28, 2024
Time: 15:00 - 18:00 Central European Summer Time
Location: Online, via Zoom

This year's conference theme is '**Duchenne Basics & More**'. This theme emphasizes the significance of mastering foundational care strategies, even in countries where not all modern technologies are present. By delving into the core principles of DMD management, attendants can enhance their knowledge to provide comprehensive and effective care for people living with DMD.

Register for Duchenne Care Conference 2024

World renowned experts in the field will share their experience on specific topics of care for people living with dystrophinopathies. Subjects include currently approved drugs for DMD around the globe, chronic kidney disease in adult DMD, and telemedicine. Additionally, attendees have the opportunity to engage with the speakers through interactive Q&A sessions.

The development of the program and speakers is guided by the board of the World Duchenne Organization as well as the Advisory Board of the Accredited Duchenne Centers Program.

We encourage all healthcare professionals from all specialties to register their interest and secure their place by using the link provided. There are no costs associated to registrering as the conference is entirely sponsored by the World Duchenne Organization with in-kind contributions from guest speakers. A certificate of attendance is available upon request.

Thank you for your consideration, and we hope to see you at the Duchenne Care Conference 2024.

Sincerely,

Elizabeth Vroom
Chair, World Duchenne Organization
